

Svetlana Linuxenko

Front-End Developer

www.linuxenko.pro

svetlana@linuxenko.pro

Summary

I'm a software engineer with **10+** years of experience working in research and commercial contexts of both large and small companies. I build useful software by developing functional and correct components, assembling them, releasing early. Experienced with modern front-end software design as well as user interface and server side development.

Skills & Qualifications

github.com/linuxenko

- **ember.js**, **angular.js**, **backbone.js**, **react/redux.js** spa frameworks. Test with **mocha**, **chai**, **sinon**, **jsdom**, **jest**, coverage reporting with **istanbull** and, of course, **commonjs** helpers such as **browserify**, **webpack** and **babel**'s jsx transpiler, build tools.
